PROFESSIONAL SUMMARY

Full-Stack Developer and Agentic AI Developer with approximately 1 year of hands-on experience building scalable web applications, AI-powered agents, multi-agent systems, and workflow automation solutions. Proficient in React, Next.js, TypeScript, Node.js, FastAPI, Python, and LangChain. Experienced in e-commerce platforms, authentication systems, REST API design, RAG pipelines, and vector databases. Demonstrated ability to deliver production-ready applications under tight deadlines, including multiple hackathon wins. Passionate about leveraging Agentic AI and LLM integrations to solve real-world business challenges.

TECHNICAL SKILLS

Languages

JavaScript (ES2022+), TypeScript, Python

Frontend

React.js, Next.js, Tailwind CSS, HTML5, CSS3, Vite, Redux Toolkit, Context API, Tanstack Query, SWR, React Hook Form, Zod, Shadcn/UI, Framer Motion, GSAP, Responsive Design

Backend & APIs

Node.js, Express.js, FastAPI, Python, REST APIs, WebHooks, SSR, JWT Authentication

AI & Automation

OpenAI SDK, Agentic AI, AI Agents, Multi-Agent Systems, LangChain, RAG Systems, Prompt Engineering, AI Chatbots, AI Voice Agents, Workflow Automation, Chainlit, SpecKit Plus, Gemini CLI, Claude Code

Databases

MongoDB, PostgreSQL, Firebase, Qdrant (Vector Database)

Data & Analytics

NumPy, Pandas, Matplotlib, Seaborn, EDA, Data Processing, Analytics Dashboards

Testing

Jest, React Testing Library, Unit Testing, Component Testing

Tools & Deploy

Git, GitHub, Vercel, Netlify, Postman, Streamlit

WORK EXPERIENCE

Freelance Full-Stack Developer | Self-Employed

Jan 2025 – Present | Remote

- Designed and delivered full-stack web applications for clients including e-commerce platforms, admin dashboards, and AI-powered automation tools using React, Next.js, Node.js, and FastAPI.
- Built and deployed Agentic AI systems and multi-agent workflows using OpenAI SDK, LangChain, and RAG pipelines, enabling clients to automate complex business processes with minimal human intervention.
- Developed AI voice agents and intelligent chatbots integrated into client-facing products, improving task automation and user engagement.
- Integrated vector databases (Qdrant) for semantic search and retrieval-augmented generation in AI applications.
- Managed end-to-end project delivery independently — from architecture and development to deployment on Vercel and Netlify.

Full-Stack Intern | The Quick Logic

July 2025 – Dec 2025 | Remote

- Completed a 6-month full-stack development internship, gaining production experience in building web applications and REST APIs.
- Built and maintained frontend components using React and Next.js, and contributed to backend API development using Node.js and Express.js.
- Assisted in integrating third-party APIs and implementing authentication flows (JWT) for web applications.
- Collaborated with the team on code reviews, bug fixes, and feature delivery in an agile development environment.

EDUCATION

Intermediate

Shaheen Public Girls Sec School

Field: Computer Science

2024 – 2026

Virtual University

Field: Computer Science

2026 – Present

HACKATHONS & ACHIEVEMENTS

- BWA Hackathon — 1st Place Winner:** Built an AI-driven automation system; secured first position through innovative architecture and execution.
- SMIT Hackathon —** Built a real-time data analysis system that processes input data and generates meaningful insights dynamically.
- Marketplace Builder 2025 —** Delivered a production-ready full-stack marketplace application within a 7-day hackathon challenge.
- Google ADK Workshop —** Gained hands-on experience building AI-powered applications using Google Agent Development Kit tools and workflows.
